

Lifeline - Boca Raton

CASE STUDY

Commercial & Retails Signs

Integrated Sign Solutions for
New Business and Pre-openings

sign

PROJECT OVERVIEW

LifeLine Repairs is a recognized innovator in electronic repair services throughout the Southeast.

Their reputation has been built on excellent customer service, high-quality products, effective services and innovative solutions.

LifeLine is committed to creating a truly “life-saving” experience in which customers are able to get their devices up and running again in a very short period of time.

We were excited when Roberto, owner of LifeLine in Boca Raton contacted us and inquired about vehicle wraps. He was developing his first store in the region and wanted to start advertising ASAP.

Our partnership developed further and we designed, fabricated and installed a series of signs for LifeLine, including outside illuminated sign, window graphics, trade show items and store signs.

Roberto was opening his new business and it was fundamental to understand his perspective:

Deadlines

We had to be assertive and project manage throughout the entire process - everything had to be ready on time for Grand Opening!

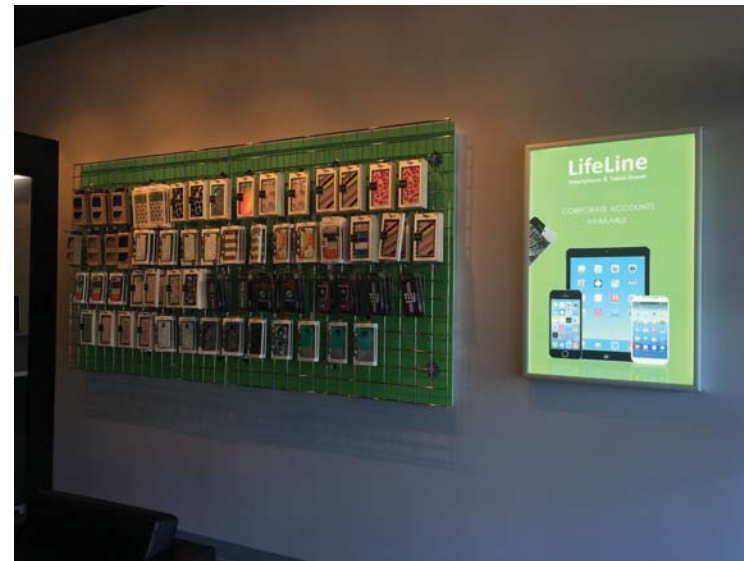

Get Noticed

Effective designs was key! We had to communicate his message clearly so his name and brand could be heard and understood

Quality

LifeLine provides high-end service to customers, their visual communication must be in-line with their identity.

“

The Sign Partners team is responsible for making our space looking unique and professional. We love our outdoor illuminated signs and vehicle wrap. We need to pop-out and they definitely made it happen.

We cannot recommend them enough!”

*Roberto Marquez
Owner of LifeLine Boca Raton*
